

The logo features a stylized 'C' inside a circle, followed by the word 'CROWNLINE' in a bold, italicized, metallic font. The background shows a serene lake scene with two Crownline speedboats docked at a sandy shore. One boat is maroon and white, and the other is white with a dark stripe. Two red plastic chairs are in the foreground. The scene is framed by tree branches at the top.

LIVE LIFE. LIVE CROWNLINE.

**CROWNLINE**

# INDUSTRY LEADER IN CUSTOMER DRIVEN STANDARD FEATURES!

Crownline builds boats that are loaded with outstanding customer-driven standard features. By listening to our customers, experienced boaters who embrace the boating lifestyle, we have determined which value-added standard features are most important to include to make on-board times the best times ever. Crownline provides the longest list of standard features of any builder in the industry! And, we are continually reevaluating this list each year to keep up with the complex and ever changing needs of our customers. It's just one more example of why Crownline continues to be one of the top builders of owner-pleasing outboard sport boats and a leader in boat owner satisfaction.

Our Eclipse XS-Series models come standard with bow and cockpit canvas and bimini top, Deluxe shock absorbing bucket seats with flip-up bolsters and stainless steel logo accents, stainless steel windshield header (excludes E1 XS) and windshield lock, snap-in cockpit carpet, LED cockpit lighting package, dual battery switch, at least six WetSounds stereo speakers, bow flip-up arm rests and beautiful hand wrapped, double stitched dash shroud with an Executive black steering wheel. Our E6 XS and E29 XS feature a Raymarine Touchscreen MFD with gateway cable and engine information – standard!

Our extensive list of standard features include those for creature comfort, and also those that support increased safety. Our F.A.S.T. Tab<sup>®</sup> hull is designed to ensure planing efficiency and stability in high-speed turns. Deep freeboards provide added safety and comfort for little ones. Features such as stainless steel pull up cleats, plenty of grab handles, four step boarding ladders with handles, full beam swim platforms with mats and walk thru transoms – and many, many more. There are so many standard features on every Crownline model! Please visit our website at [www.crownline.com](http://www.crownline.com) for a complete list.

# THE DANGERS OF FOCUSING ON PRICE ALONE.

Crownline value and quality cannot be duplicated in less expensive boats. Somewhere, somehow a corner must be cut – interior components, thinner and cheaper hulls, or the omission of strengtheners or features. Cheaper boats are made to sell, not own or provide extended value. The builder and dealer take your money and you, the buyer, get hurt. Lower prices generally mean much lower quality, substantially fewer standard features, a sub-par warranty, no customer service and no replacement parts when you need them.

Buying a boat is a huge investment for you and your family, so make it a smart investment. Research the quality of the boat, the dealer, the replacement parts and after-the-sale customer service.

At Crownline, we stand behind our products, dealers and superior customer service. Our commitment to excellence is our best guarantee of customer satisfaction and pride of ownership. **That's why Crownline boats' resale values are so high. We build them to last for the long run!**

UNPARALLELED STYLE...  
UNBELIEVABLE ATTENTION  
TO DETAIL...  
UNEQUALED VALUE

**DESIGN:** Crownline boats are without a doubt the most exciting and progressive boats on the market today. We have successfully married a sexy, sporty look with that of high sophistication, just the thing for boaters who desire comfort and convenience, yet still yearn for racy, sports car styling. Crownline interiors are conversation and entertainment friendly, designed for beauty as well as luxury, comfort and convenience. The fact that Crownline continues to be one of the top names in the boating industry can be attributed to the many innovative ideas incorporated into all of our boat designs.

**QUALITY:** Beautiful, eye-catching styling is important. However, when you are investing in a boat, you want one that is safe and well made. One that will provide years of enjoyment for you and your family. At Crownline, we use the highest quality products available. Every piece of equipment that goes into our boats is selected for its quality and marine durability. And we use proven manufacturing techniques and methods that ensure world-class construction quality. Crownline boats are built to zero tolerance standards for the best quality and value in the industry.

**CROWNLINE'S COMMITMENT:** We attribute our success not only to our continually evolving innovative "signature" styling, but also to our uncompromising quality standards. At Crownline, we don't cut corners. Every boat receives numerous inspections throughout crucial stages of our build processes. Our dedication to outstanding quality and craftsmanship results in a better long term investment for you and your family.
