CROWNLINE

UNPARALLELED STYLE... UNBELIEVABLE ATTENTION TO DETAIL...UNEQUALED VALUE

DESIGN: If you have decided you're ready to join the cruiser lifestyle, but don't want to ride around in a "square box", we have just what you are looking for. Well known for designing state of the art, cutting edge boats, Crownline's sleek "sports car" styling carries over into our cruiser line-up as well. And our performance-tuned engine applications and strategically designed hulls deliver an excellent ride and agile maneuverability.

Innovative, thoughtfully laid out floor plans provide entertainment friendly cockpits and roomy, comfortable cabins with all the amenities, luxuries and conveniences of home. And, Crownline provides more standard features - cockpit and full camper canvas, snap-in Driftwood woven cockpit mat, electric lift engine hatches, LED cockpit lighting, windlass, fully appointed head compartments, trim tabs with indicators, and much more - to make your on-water, overnighting experiences the best ever.

QUALITY: Beautiful, eye-catching styling is important. However, when you are investing in a boat, you want one that is safe and well made. One that will provide years of enjoyment for you and your family. At Crownline, we use the highest quality products available. Every piece of equipment that goes into our boats is selected for its quality and marine durability. And we use proven manufacturing techniques and methods that ensure world-class construction quality. Crownline boats are built to zero tolerance standards for the best quality and value in the industry.

CROWNLINE'S COMMITMENT: We attribute our success not only to our continually evolving innovative "signature" styling, but also to our uncompromising quality standards. At Crownline, we don't cut corners. Every boat receives numerous inspections throughout crucial stages of our build processes. Our dedication to outstanding quality and craftsmanship results in a better long term investment for you and your family.

The chef will appreciate the fully equipped galley. A ceramic flat top electric stove, stainless steel sink, refrigerator and microwave are encased in richly toned cabinetry with a custom countertop and plenty of storage.

GELCOAT, FABRIC, VINYL & CANVAS

Crownline builds cruisers that are loaded with outstanding customer-driven standard features. Cockpit and full camper canvas with stainless steel tubing and hardware, snap-in Driftwood woven cockpit mat, electric lift engine hatches, auto fire extinguishing system with indicator, LED cockpit lighting, windlass, fully appointed head compartments, trim tabs with indicators, and much more – all standard equipment on our Crownline cruiser line. However, we still allow you to express your unique style and accommodate your individual needs by offering numerous option choices. Along with our many engine application choices, you can also choose from a choice of gelcoat patterns and colors, canvas colors, flooring and more. Our seating is finished with marine vinyl in an array of colors and patterns, all with a special finish that is resistant to UV rays, stains, grease and other surface-damaging materials. And, there's a variety of classic designer fabrics for your cabin upholstery. The choice is yours!

Crownline canvas carries a five-year warranty against manufacturer's defects, seam tears and thread separation. Our bimini tops, cockpit canvas and camper canvas are made with the high quality color-keyed canvas recognized throughout the boating industry for its strength, durability and fade-resistant qualities. The stainless steel bimini frame features trailering legs that allow the bimini to be lowered to windshield level when the boat is being transported. A boot is used to stow the furled bimini top. Frame, top and cover are completely assembled and installed at the plant to assure a perfect fit.

IMAGINE YOURSELF AT THE HELM.

Whether you are in command of an aircraft carrier, or a 36' sport yacht, you need to know what's going on. On a Crownline, you do. Crownline helms are designed and built for beauty, convenience and visibility. The reduced glare gauges are conveniently located and easily accessed when you are underway, and standard gauges carry a lifetime warranty.

The captain of the boat will appreciate the comfortable double helm seat, which features fore and aft adjustment. A sturdy underbody of corrosion-free composite material underpins a support system that is wrapped in heavy foam and designed to absorb light to heavy impacts. The flip-up bolster feature slips up easily into position when docking, or when a little better visibility is needed. The seat, bolster and seat back are covered in a durable marine-grade vinyl for years of enjoyment.
